A Deposit of \$ \_\_\_\_\_ is required before ordering.

(If paying in full please call us for an exact total of your order)

### Please help us to order your gown correctly.

Be accurate when measuring, as all gowns are ordered from the information you give us. We compare your measurements to the manufacturers measurement charts to determine a size. This size is determined by your largest measurement. (For example, if your bust measures a size 8 and your waist measures a size 10, we must order the size 10). Do not take your measurements too tightly. If unusual corrections are needed due to any misinformation, you must bear the cost of any additional fabric or labor.

(Please note: dresses run smaller than regular clothing sizes.)

Bust: \_\_\_\_\_ (fullest part- NOT bra size) Waist (at its smallest part): \_\_\_\_\_  
Hips (at the largest part): \_\_\_\_\_ Normal dress size: \_\_\_\_\_  
Height: \_\_\_\_\_ Height of heel you plan to wear: \_\_\_\_\_

If you are 5'8" or taller with your shoes on, you may need extra length. Most manufacturers cut their dresses for a standard height of 5'8". There are additional charges for extra length depending on the designer of the gown. If you are 5'8" or taller with your shoes on and do not want extra length, you must assume responsibility if the gown does not fit by signing below.

Please order me a size: \_\_\_\_\_

Extra length: Yes or No (Please circle one)

Printed Name: \_\_\_\_\_

Signature: \_\_\_\_\_

Please return this form with your deposit as soon as possible.

**BUST:** Lift your arms out to the side and measure around the fullest part of your bust, following your bra strap in the back.

**WAIST:** Measure around your waistline, against skin.

**HIPS:** Stand with feet together, and measure around the fullest part of your hips.

Please refer to the size chart listed for your specific dress when placing your order.

Please measure carefully:

If you do not have a tape measure, you can use a string and apply it to a ruler. Your dress should be ordered using your largest measurement, and will require alterations. These gowns are sized smaller than regular clothes, so do not guess at your size.

If you need help or have any questions, please call us at 781.828.4040.

If you are over 5 foot 9 many of the dresses will be too short if you wear heels. Please call us to find a style that is available in extra length. All dresses on our website are standard length and are designed for someone 5 foot 7 - 5 foot 8 wearing approximately a 2" heel.

All gowns can be hemmed (even dresses with beading).

\* Please remember to call your local seamstress/tailor early to make appointment to have your gown altered. Many tailors will steam/press your gown for you OR you can try calling your local dry cleaners for pressing fees.
